

I am Nico

BMS GRADUATE

Today I work as

Area Sales Manager at the Online Travel Website HolidayCheck.

I decided to study at HOST because

... at my first visit at an open house event, I instantly felt the familial atmosphere. I was really impressed by the campus which is directly located at the sea. Within BMS, you can also learn a Baltic language, which also fascinated me. Another benefit for the University is the beautiful historic city, which is only 15 minutes by bike from the campus.

I especially liked

... the exchange with the professors. You will find an open-door policy there. Secondly, I appreciated the practice-oriented focus. Within the studies, you have many projects, a lot of guest lecturers from companies, the chance to spend some semesters abroad, an internship period and of course your study excursion. Sounds like a lot of practical learnings and also fun, does not it?!

My BMS-study in 3 words

PRACTICE-ORIENTED, FAMILIAL AND FUN.
